HEIGHT
ADJUSTABLE

PRODUCT COLLECTIONS

HEIGHT ADJUSTABLE

FURNITURE FOR YOUR INSTITUTION

By height adjustability of chairs and desks the optimum sitting comfort can be adapted to various students heights. They are stackable, makes the use more versatile, and the space can be used more efficiently.

Nowadays in addition to frontal teaching, group work, games or other events that require movement are more common.

FLEX JUSTY

This is one of our newest product lines. During the development we have focused on the high variability of usage, and the result gives several options of placing tables in different forms together.

DESKS

High mobility brings versatility!

Our ongoing furniture developments create space, allow institutions to find the most suitable solution for them, even multifunctional school furniture for all day education ensure a smooth running of the whole day.

Essential for modern learning is the need for differentiation in the classroom, which implies that school furniture must meet both individual and group work.

For this differentiation, the furniture is arranged spatially, this requires a need of ease of movement and combination, functionality, ergonomics, and rangeability.

FURNITURES

OFFICE FURNITURE

UNIQUE & HIGHLY EFFICIENT OFFICE

TAILORED TO REQUIREMENTS

During design phase, we take into account in what type of environment office workers can do their job efficiently. Maintainable and smart office layouts.

Choose from our furniture range, and customise work environments for your individual needs.

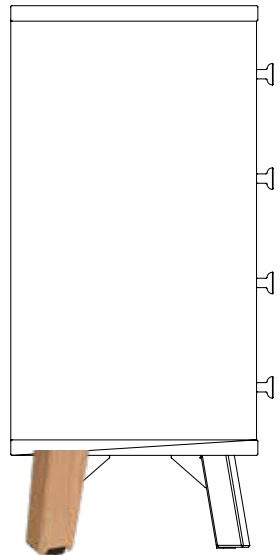

During furnishing, we offer convenient options for arranging network cables and electrical wiring with mainline tools. Additionally, we modernise phone charging with built-in chargers.

For us, the office is not only a place for work, it is also a stage for creativity and teamwork.

TO LET THOUGHTS OPENLY FLOW, WE NEED TIDINESS AROUND US.

That is what the Pontis cabinet is best at: items, items not used at a time has to be stored orderly, whilst managing accessibility.

OAK legs

WE BROUGHT NATURE INTO THE OFFICE

Storage sizes of the Pontis cabinet were designed with the standard folder height in mind.

Cabinets are available in full laminated door, glass door & drawer, and wardrobe versions.

Lower Pontis sideboards open up space creating a warmer and more welcoming interior.

CABINETS

PONTIS

THE NEW DESIGN

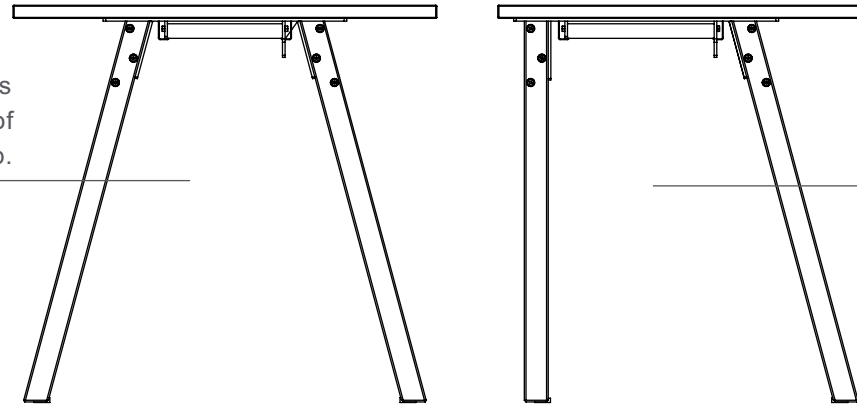

The main principle behind the design of the Pontis Collection is to furnish multifunctional spaces with visual integrity.

By the natural textures of oil treated solid wood legs we bring nature in the office. Combining organic wood with steel creates a perfect combination and a lively environment.

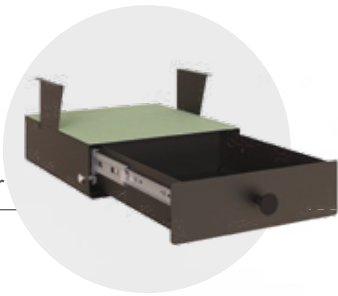

SYMMETRICAL OR ASYMMETRICAL DESK

The legs of the Pontis desk have an angle of 75 degrees to the top.
